Dear Sir/Madam:

Preliminary Amendment

This preliminary amendment is being submitted in relation to the originally filed PCT application. In this preliminary amendment, the claims identified as "Previously Presented" were amended on May 8, 2005 during the PCT phase and which were the basis of the International Preliminary Report on Patentability – the amendments are shown. Also in this preliminary amendment, the claims identified as "Currently Amended" are those that (a) correct the multiple dependent claims and European format of claims that can be found in the original application and the May 8, 2005 amendments so the present application conforms to U.S. format; and (b) amend claim 4 to correct a typographical error. The amended claims start at page 2 of this document. The scope and breadth of the claims have not been, in our opinion, altered.

Respectfully submitted

Kevin D. McCarthy
